

Biography

David Brinkman, Palm Springs Broker and Appraiser

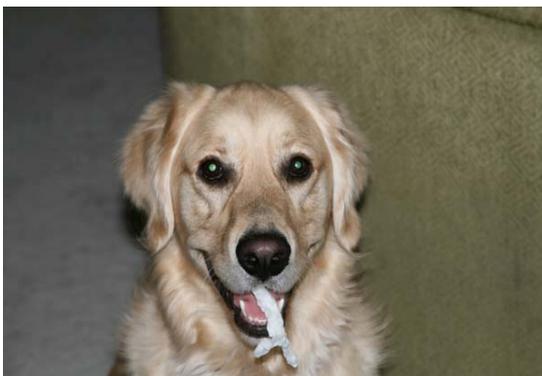

I was born and raised in Michigan, in a small town named East Tawas, on the shores of Lake Huron. I have also lived in Arizona, Wisconsin and Colorado. I moved to southern California from Colorado as a part of a company transfer in 1987. I lived in various cities in Orange County prior to moving to the desert in 1998

I hold a B.S. in Management from Pepperdine University, as well as various other formal education, including programming certificates in "C", "Visual Basic" and a University of California / Riverside certification as an Oracle Database Administrator.

In addition to being a California Real Estate Broker, I am also a California Certified Residential Real Estate Appraiser (License: AR034868) This knowledge provides definite advantages for buyers and sellers, but there are laws governing what I can and cannot do; please see the link on Appraisals on my site, for more information on that.

I was raised in the era of Snoopy and Mr. Spock; I think my personality is a rather strange mix of those two... I have a good sense of humor, but it tends to be rather dry. I can't remember a joke for more than a day so I tend to wing it, making them up as I go. As I can't remember my own jokes either, you can probably tell them back to me tomorrow with fair results. I'm blue-eyed, brown-haired (though I have my blonde moments), around 185 pounds (usually) and about 6 feet.

I bought a great home with my best friend, in 1998; it's located in the Deepwell area of south Palm Springs. We have two Golden Retrievers... 'the guys' are shown below – just because.

<< Casey is three years old and still manages to chase his own tail while running down the hall - eventually getting too dizzy to stand. He will find something he should not have (like this paper towel) and then taunt you with it in an effort to get you to chase him... Play, play, play!

>> Verdin was adopted, and is also about three years old. This guy

loves to play with a ball – and will fall asleep with a tennis ball in his mouth, but he can't catch one unless its thrown into his mouth. It is funny to watch him try! He has learned how to carry two tennis balls at once, and is working on three. This intense look is because he's got a ball in his mouth...and he's not about to give it up.

I love photography; all the photography on this site is mine. (Please respect my copyrights!) I also have an interest in writing and reading: I am a sci-fi/fantasy fan. I play pool, (the 8-ball kind) as well as IN the pool.

I am internet savvy - not just a browser, but a user. I have the ability to complete most aspects of a real estate transaction using the internet. For those of you who prefer to stay away from high-tech, I can use snail-mail, faxes and at times, even hand delivery! Should you want to buy a house on-line, I'd be glad to supply a catalog of properties!!! Please note that I have no return policy on homes and condos... :-) Some virtual imagery is possible for those who'd like to see a short movie of a specific property.

Previous corporate life has taught me some lessons and disciplines regarding professionalism and client satisfaction which complement the real estate profession nicely. Client satisfaction is my personal objective - not just words - I work at it with determination.

And my guys have taught me some secrets of working together – even when there's a bit of growling going on.

If you have real estate needs, anytime or anywhere, I hope you will give me a call!
